Wendy Stefiuk
Baby Friendly Initiative Coalition
Human Milk Bank Sub-Committee
Saskatoon Health Region
Saskatoon, SK

Dear Mrs. Stefiuk:

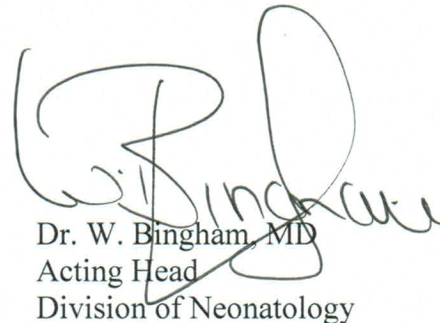

Re: Expression of support for establishing a human milk bank in Saskatchewan and intent to use donor human milk when available

With this letter we express our support for establishing a donor human milk bank in Saskatchewan. Currently, our facility does not have access to donor human milk, mainly because of supply and logistical limitations of other available facilities in Canada and North America. We are very interested in having this resource available in our health region and will welcome such a facility.

Sincerely,

Dr. L. Givelichian, MD
Acting Head
Department of Pediatrics

Dr. W. Bingham, MD
Acting Head
Division of Neonatology
